Letter of Recommendation

To Whom It May Concern,

It is with genuine pleasure and confidence that I recommend **Isaac Steve Njuguna**, who served as a **Data Science & Analytics Intern** at Zidio Development from **Jun 1, 2026** to **Aug 31, 2026**. As Isaac's mentor and direct supervisor throughout the program, I had the opportunity to observe their work closely, and I recommend them without reservation.

From the outset, Isaac demonstrated strong proficiency in **Data Science & Analytics** and a clear grasp of the concepts, tools, and practices central to the role. Isaac approached each assignment methodically—breaking complex problems into manageable parts, paying close attention to detail and quality, and consistently delivering work of a high standard ahead of schedule.

What set Isaac apart was the ownership they brought to their work. Rather than waiting to be directed, they took initiative—identifying gaps, proposing improvements, and seeing every task through to completion. On their final project, Isaac independently identified and resolved a key challenge, demonstrating both depth of skill and a genuine sense of responsibility for the outcome.

Equally impressive was Isaac's professionalism and collaborative spirit. They communicated clearly and proactively, welcomed constructive feedback, and supported their teammates generously. These qualities distinguished Isaac as one of our top-performing interns—a recognition reserved for those who consistently exceed expectations across both professional and role-specific benchmarks.

I am confident that Isaac will be a valuable asset to any organization and will continue to grow into an outstanding professional. I recommend them wholeheartedly and without hesitation. Should you require any further information, please do not hesitate to contact me directly.

Sincerely,

Mr. Harsa Dash
